JUNE 21 + 24

A background image showing the historic architecture of Dubrovnik, featuring stone buildings with arched windows and a prominent domed structure in the distance under a clear blue sky.

Dear colleagues,

It is a great pleasure and a privilege to invite you to the Dubrovnik Imaging Symposium, taking place in the lovely city of Dubrovnik, June 22-24, 2023.

This symposium is a new meeting venture, organised by leading radiologists from Europe and the United States. We aim at offering a broad range of lectures, workshops, case discussions and expert opinions from important fields in radiology.

Beyond that, we will experience an exciting face-off session in which different AI companies will compete on predefined data sets and show the performances of their software products in live discussions. Last but not least, highlight- and new horizon-lectures will update you about exciting developments in the field of imaging.

It is our goal to enhance the knowledge and expertise of our attendees in five different sub-specialties of imaging in areas where imaging really can make a difference. To achieve these goals, we have been able to involve and secure top-class experts from around the world who will lecture and provide their expertise in twelve educational sessions and six workshops as well as plenary lectures, filling three days with supreme education.

SCIENTIFIC COMMITTEE

Christian Herold, Vienna/AT
Hedvig Hricak, New York/US
Konstantin Nikolaou, Tübingen/DE
Andrea Rockall, London/UK
Clemens Cyran, Munich/DE
Carlo Catalano, Rome/IT

ORGANISING COMMITTEE

Thomas Helbich, Vienna/AT
Christian Loewe, Vienna/AT
Stefan Schönberg, Mannheim/DE
Helmut Prosch, Vienna/AT
Marco Francone, Milan/IT
Maxine Jochelson, New York/US
Marius Mayerhöfer, Vienna/AT

LOCAL ORGANISING COMMITTEE

Boris Brkljačić, Zagreb/HR
Vilma Kosovic, Dubrovnik/HR

ADVISORY BOARD

Maximilian Reiser, Munich/DE
Jens Ricke, Munich/DE
